FOR USE UPON RECEIPT — 2006

Jesco Lighting, Inc. Introduces Sleek Plus Adjustable: Accent And Display Illumination Never Looked So Good

New Product: Sleek Plus Adjustable — adjustable, linkable, energy-efficient compact linear fluorescent undercabinet, undercounter merchandise display and accent lights.

Design: Jesco Lighting, Inc. In-House Lighting Design & Engineering Team.

Manufacturer: Jesco Lighting, Inc., “the future of lighting fixtures.”

Product Applications: Sleek Plus Adjustable provides user-adjustable, energy-efficient display and accent lighting from a compact, linear, easy-to-specify-and-install linkable housing.

Sleek Plus Adjustable is designed specifically for use in merchandise display cases, especially where a low profile and low heat are requirements. These include department and electronic stores; retail jewelry, specialty clothing and accessories; perfume and makeup counters; kitchen and bath showrooms; reception desks and counters; residential kitchens and bathrooms; trophy cases and more.

Product Description: Sleek Plus Adjustable is the first linkable fluorescent display fixture to offer *complete directional adjustability*. A proprietary rotatable reflector module enables **Sleek Plus Adjustable** to rotate 360°, allowing illumination to be directed exactly where needed. Illumination is provided by choice T4, T5 or T5 High Output small-scale linear fluorescent lamps.

Sleek Plus Adjustable is characterized by a slender, unobtrusive, extruded metal strip housing. It can be specified in lengths from 9 inches to 5 feet. Up to 10 units can be

easily connected end-to-end with *no loss of light output*. The result is striking continuous-row illumination that can change with the merchandise or personal preference.

Stainless steel spring clips simplify installation for either *horizontal* or *vertical* mounting, yet are durable enough to provide a lifetime of positioning and repositioning.

An integral ballast in **Sleek Plus Adjustable** allows each fixture to occupy a .75-inch high by 1.5-inch deep "footprint", for inconspicuous, high-performance, even lighting in virtually any application.

Lighting options include color-temperature ranges from 3000K to 6400K in white or soft white. Black, blue, green or red lamps can also be specified for special effects. Other options include right-angle connectors, hard-wire junction boxes, power cords and Jesco's patented power strips.

Construction & Finishes: **Sleek Plus Adjustable** housings are constructed from extruded aluminum for lightweight durability and heat dispersion. Finish options are anodized silver or white enamel paint. **Sleek Plus Adjustable** is UL and CUL listed for direct-wired installations, for assured electrical safety.

Ordering Information: Literature, specifications and pricing for **Sleek Plus Adjustable** is available from Jesco Lighting, Inc., 66-25Traffic Avenue, Glendale, New York 11385. Telephone: (718) 366-3211. Fax: (718) 366-3646. E-mail: sales@jescolighting.com. Learn more about Jesco Lighting, Inc. by visiting: www.jescolighting.com
