New Metal Halide Track Lighting Catalog From Jesco

Glendale, New York, 2007 — Jesco Lighting, Inc., one of the nation's fastest-growing lighting manufacturers, winning accolades for its broad range of contemporary-design ambient/accent fixtures for commercial, institutional and residential applications, has announced availability of a catalog detailing the Series 901/902 of aimable, lockable, single and dual lighthead metal halide track lighting.

The full-color, 8-page catalog presents a thorough overview of the Series 901/902. Of particular note are the Jesco T4, T6 and T6L light heads, which offer the multiple benefits of higher wattage metal halide lamping, that looks the same physically as larger PAR 30 and PAR 38 track heads.

The Series 901/902 catalog combines application and product photos, illustrations and descriptive information. It presents the Series 901/902 as a durable, changeable, highly contemporary alternative to more traditional track systems that can be less energy efficient.

"H," "J" and "L" system adaptors complement the track-mounted lights. Information on other newly available Jesco lighting system literature is also provided.

Learn more about Jesco products and capabilities by visiting: www.jescolighting.com. Jesco Lighting, Inc. is located at 66-25 Traffic Avenue, Glendale, New York 11385. Telephone: (718) 366-3211. Fax: (718) 366-3646. E-mail: sales@jescolighting.com.
