New Jesco Stax Causes Lots Of Yakety-Yak

New Product Introduction: Stax Series 303 — rotatable-layered glass interior lighting collection.

Design: Jesco In-House Lighting Design & Engineering Team.

Manufacturer: Jesco Lighting, Inc., “the future of lighting.”

Product Applications: Stax Series 303 fixtures embody an original contemporary design that provides functional ambient/accent light, in a range of models for upscale residential, commercial and institutional interiors. These include reception spaces, corporate dining areas, executive offices, healthcare and hospitality venues, and throughout fine residences.

Product Description: Eight layers of glass squares, set around a cylindrical glass core, instantly characterize Stax Series 303 designs. Each layer rotates to create delightful, ever-changing forms. The collection includes a single-lamp pendant, wall sconce, a short-stem table light and a table light with a glass base.

The collection includes: the Stax WS303 Wall Sconce measuring 5-7/8 inches high x 5-3/4 inches wide, by 6-5/8 inches deep. The Stax TL303S Table Lamp measures 5-1/8 inches high, with a base of 4 x 4 inches. The Stax TL303M Table Lamp has a glass base 10-5/8 inches high, its base is 4-3/4 x 4-3/4 inches. The Stax PD303-1 Light Pendant glass measures 4 inches long x 4 inches wide and 3-3/4 inches high. The canopy measures 4-1/4 x 4-1/4 inches. Height can be adjusted from 12 to 72 inches.

Jesco Introduces Stax... page 2

Construction & Finishes: Stax Series 303 is made from half-inch-thick glass plates, eight plates for each model. The plates are set around a translucent, ribbed, circular glass core.

Pendant model is attached to a rectangular ceiling rise, via a metal aircraft cable attached to metal connectors above the glass core. The pendant core is a square that mimics the glass plates. A metal base is standard with the short stem table model and with the wall sconce. A glass base is available for the alternate table model, which has a longer metal stem.

All Stax Series 303 models are UL and CUL listed.
