FOR USE UPON RECEIPT – 2008

New Leila Series From Jesco Enlightens Life

New Product Introduction: Leila Series 618 — timeless, classical contemporary-design collection of pendant, wall sconce, table and floor lamps.

Design: Jesco Lighting In-House Design & Engineering Team.

Manufacturer: Jesco Lighting, Inc.

Product Applications: Leila Series 618 provides crisp, white direct/indirect illumination, in two appealing pendant light designs, with coordinating wall sconce, floor and table models.

Units are suited for use as accent or ambient lighting across a wide range of commercial or higher-end residential installations. These include art galleries; boutique retail; building entryways, lobbies and corridors; executive suites and conference rooms; hospitality venues; merchandise showrooms; professional offices; upscale residential. Units can be grouped to form repeating patterns of suspended and wall lighting designs.

Product Description: Leila Series 618 pendants present a series of one- or two-light modules with classical drum-shaped shades. The two-light model combination of incandescent and halogen light source unit is suspended from ceilings via a horizontal light bar and vertical rod combination. The single-unit model suspends via three aircraft cables, directly onto a ceiling riser.

Each pendant model and the floor light provide an up/down illumination via a dimmer switch for pendants, or cord switching for the floor light.

Jesco Introduces The Leila Series 618...page 2

Construction & Finishes: Leila Series 618 are finished two-tone chrome and satin chrome. Shades are constructed fabric, each with a top chrome accent ring and frosted top and bottom glass diffusers. They may be ordered in black or white.

The two-light model takes four G12 incandescent, and four G9 halogen lamps. The one-light unit takes three A19 incandescent and three, G9 halogen lamps. All models are designed to meet UL, CUL and CE standards of operation.
